Leading Doctors In Consultation, But No Hope Is Held Out That the Aged Pontiff Will Get Well.

Rome, July 3, 6:25 p. m.—A few moments ago Dr. Mazzoni was suddenly called out of the sick chamber by Cardinal Rampolla and a hurried whispered conversation ensued. This gave rise to all kinds of rumors, but it was soon explained that Cardinal Rampolla had taken upon himself the duty of acting as mouthpiece.

doctors in consultation. Dr. Mazzoni replied that he had not the least objection to such a consultation, but that the symptoms and course of the disease were so clear and well defined as to leave no doubt as to the diagnosis. He was, therefore, unable to see the necessity for the step proposed. No decision has yet been reached about the matter.

Best Loved Pope.

Although Pope Leo is one of the best loved of the popes, the situation in the church now is that while there is one party which would do anything possible to have him linger, there is any other party is composed of all the friends of those who are now in power and who have secured the best pests, both with regard to honors and positions, as well as financially. These understand that a change may mean practical oblivion for them.

The other party is composed of all those who have been kept in the back-ground and whose only hope is in a new administration. It must be considered that a new pope generally brings a change in all the great departments, including the papal secretary of state and vicar of Rome. the convertible of the convertible of the convertible of the papal secretary of state and vicar of Rome. the convertible of the convertible of the convertible that a new pope generally brings a change in all the great departments, including the papal secretary of state and vicar of Rome. the convertible of the convertible of the papal secretary of state and vicar of Rome. the convertible of the

It must be considered that a new pope generally brings a change in all the great departments, including the papal secretary of state and vicar of Rome, the representative of the pontiff in spiritual affairs; the vice chancellor, who has charge of issuing the papal bulls; the grand penitentiary, who presides at the tribunal of penitentiaries, granting abstract of the pontiff in spiritual affairs. The Secretaryship. There is only one man who holds such a position as to be sure to profit by the election of a new pope, if the usual customs are observed. This is the secretary of the consistorial congregation, who, during the conclave, acts as secretary of state. It is his duty, when a pope is elected, to advance, kneeling, and offer the white succetto, or the small cap, making him a cardinal. On that occasion in 1878 dinal. It became known later in the day that the motive of Dr. Mazzoni's sudden call by Cardinal Rampolla originated in what vatican circles have already baptized the "rebellion of the cardinals" against Dr. Lapponi. It appears that some of the cardinals complained of the doctor's treatment of the patient, thinking that Dr. Lapponi had not, since the beginning, detected that the pope was suffering from an affection of pieura, and thus, they said, allowing the disease to assume a gravity which otherwise might perhaps have been avoided. Preparing For the End.

Paris, July 9.—According to the Journal's correspondent at Rome, the Italian government has organized everything admirably. An army of police is present, yet invisible. Cardinal Oreglia, says the Journal's correspondent, told him last evening that there were possibly treasures and in any case important documents in the pope's room, and he must prevent anyone entering, as "some relatives or cardinals have long fingers."
